rising cost of living in the valley, stickers have become a way to anonymously comment and make light of those topics in a tangible, meme-like way.

Because stickers have been slapped for the past few decades, some have turned into cultural artifacts. "Don't let the hole lose its

The Snake River Brewing holding tank is covered in stickers as far as people can reach, or climb.

soul," is a classic sticker that signified the sentiment of residents wanting to retain the character of the town. The sticker can still be spotted, and at any bar in town, you can find someone to debate the topic with.

Wildlife in the Jackson Hole region is also a huge part of the fabric of the community. Cars around the valley can be seen with "I brake for wildlife" or "I brake for migration," an attempt to urge other drivers on the road to slow down and be aware of wildlife on the roadways.

Over the past few years, Jackson and mountain towns across the country have gone through changes. With new homes, hotels, condos and apartments being built all across town, artifacts of a time passed still remain in certain corners of the community. Regardless of the subject matter, stickers reflect the cultural moment, past and present, of our little town. TLG

What's a Slathio?

In just a few years, sloshies have become ubiquitous Jackson Hole refreshments. Akin to an alcoholic smoothie, these succulent frozen drinks are not only served in bars and restaurants but also in gas stations and markets. Classic varieties of the sugary, adult frozen beverage like the Greyhound Huckleberry Vodka, and the Moscow Mule started out in a few locations in town like Creekside and Hoback Market.

Sloshies are made from scratch with just a handful of ingredients including mixers, ice, fresh- squeezed juice, corn syrup and a generous helping of alcohol. Blended in large containers on display reminiscent of Icee drinks branded in the eighties, they lure

thirsty adventure seekers on their way to raft the Snake River, swim at String Lake, huck themselves off the rock at Phelps Lake on a sizzling summer day, charge the ski resorts in the winter months, and after their daily valley treks and biking trails.

Sloshies have become a staple of mountain lifeconcoctions enjoyed year-round. Of course, it's critical to enjoy responsibly, as the high-octane slurpees can leave sippers pretty buzzed. So sip away, but make sure you aren't driving, don't have to work, and have a few hours to sober up before any appointments or responsibilities your day might hold. Cheers, mountain people! TLG
